您可以參考一下Harmony中USB Device Library的USB Audio 1.0 Device Library.

如下面文件

http://ww1.microchip.com/downloads/en.../USB%20Libraries_v111.pdf

page 23中有提到

The MPLAB Harmony USB Audio 1.0 Device Library (also referred to as the Audio 1.0 Function Driver or library) features routines to implement a USB Audio 1.0 Device. Examples of Audio USB Devices include USB Speakers, microphones, and voice telephony.
